Please see our [English Language Requirements](#) page

**24. Overall Programme Level Learning Outcomes - the programme offers opportunities for students to achieve and demonstrate the following learning outcomes.**

**Level 6 Graduate Certificate in Advanced Veterinary Nursing**

**Candidates will need to demonstrate:**

- x a thorough understanding of key aspects of their field of practise, including acquisition of coherent and detailed knowledge, at least some of which is at, or informed by, the forefront of their area of professional

## 25. Teaching/learning methods

Teaching, learning and assessment activities are aligned to ensure the objectives of the programme are clearly defined and that learners have the opportunities to achieve these outcomes. Assignment tasks within each module help to establish the theoretical knowledge base and assessment activities are designed to enhance the learning process and help students to measure their own progress. All teaching, learning and assessment activities are designed to help learners become actively involved in their learning and provide tools for them to identify and manage their learning to achieve the learning objectives to the best of their ability.

We recognise that each learner's learning requirements are different and that they will change throughout their progression through the course. At the start of the programme, learners are given structured guidance and learning support via on-line academic tutors and peer discussion boards. These facilitators provide feedback and guidance for improving performance and learning. Discussion and sharing of learning points with others on the course is encouraged to help each learner develop their own understanding of the content.

As learners progress through the programme, there will be increasing reliance on student-centred modes of learning, which will encourage and facilitate independent study and foster the development of a professional approach to lifelong learning.

### Teaching and Learning Activities During Orientation Days

- Lectures
- Tutorials
- Seminars

### E-learning activities via VLE

- On-line interactive lectures
- On-line peer discussion board
- On-line student presentations

### Learning activities via VLE

- Problem-Based Scenarios (PBS)
- Problem-Based Exercises (PBE)
- Extended Patient Care Reports (EPCR)
- Work-Based Directed Tasks (WBDT)
- Literature-based review
- Directed and self-directed reading

## Approximate total number of hours

See section 28 below for number of credits per module

(The credit number indicates the number of notional hours of learning, which is the number of hours it is expected that a learner will spend, on average, to achieve the specified learning outcomes at that level (QAA 2009). In the UK this is one credit per 10 hours of notional learning).

**31. Assessment**

Assessment &amp; Award Regulations on the RVC Website:
