

## Consultation – what to expect ...

- x For emergency cases, a vet or veterinary nurse will triage your pet . For cats or pets requiring immediate attention, they will be assessed within our Emergency Room and then returned to you after triage assessment is complete (if your pet is stable enough to do so).
- x A veterinary student or vet will take a full clinical history. If a student, they will then discuss your pet with the supervising vet.
- x During the consultation a Consent & Estimated cost of treatment form will be generated and emailed to you –
